

Subject: Economic Development - Quarter 2 Performance Report 2017/18

Report to: Economic Development Committee – 20 November 2017

Report by: Development Director

SUBJECT MATTER/RECOMMENDATIONS

The following gives an update on current performance of Economic Development Committee measures for the second quarter of 2017/18 (Jul – Sep) where progress is assessed against Targets which are set at the start of the financial year.

Progress against Targets is assessed by RAG (Red/Amber/Green) ratings and is also assessed in terms of Direction of Travel (DoT) through use of arrows.

The summary report, see attached, highlights performance measures that are within the area covered by the Economic Development Committee. Commentary is provided at the end of the summary report highlighting those measures that outturns are below target or moving in the wrong direction.

The report highlights performance measures that have not achieved the target for this period. It also highlights a number of measures that are showing exceptional performance against targets.

RECOMMENDATIONS

The actions are:

- All measures to be monitored during the next quarter

1. INTRODUCTION/BACKGROUND

In September 2015 the Council agreed 'The Plan' which sets out its strategic vision and priorities up to 2020. This established the framework against which the Council should measure its performance at both officer meetings (through regular management reports) and Member meetings (through performance reports). This report provides details of a number of indicators affecting Economic Development Committee.

2. PERFORMANCE MEASURES

Performance Measures – Highlights

Performance measures cover a range of services delivered within the area covered

by the Economic Development Committee. The details in the summary report provide quantitative information about the performance of these services and provide useful trend data. A traffic light status easily identifies if improvement is required.

Generally the trend for all the measures is in a positive direction, however the following areas of performance are brought to your attention:

Improved performance:

- a) ED01 Planning applications: Major applications determined within 13 weeks (quarterly cumulative) has shown significant improvement and is well above its target and the figure reported for the similar period in 2016/17.
- b) ED03 Percentage of 'Other' planning applications processed within 8 weeks (quarterly cumulative) has shown continuous improvement and is well above its target and the figure of 40% reported for the similar period in 2016/17.
- c) ED14 Enterprise Zone: Percentage of empty floor space across Beacon Park (quarterly snapshot) significant improvement has been made and empty floor space has dropped from 37% to 20.39% between the first and second quarters of 2017/18.

Reduced performance:

- a) EDO9 Percentage of Land Charges search returns sent within 10 working days (quarterly cumulative): although performance is still below the target of 97%, the second quarter shows a much improved performance reaching 91%. The service is still experiencing delays from Norfolk County Council, as highlighted last quarter, as they clear the backlog.

Data Quality note

All data included in this report for the current financial year is provisional unaudited data and is categorised as management information. All current in-year results may therefore be subject to later revision.

3. FINANCIAL IMPLICATIONS

None

4. RISK IMPLICATIONS

None

5. CONCLUSIONS

The significant improvement in RAG status across most areas is noted.

6. RECOMMENDATIONS

The actions are:

- All measures to be monitored during the next quarter
