- Subject: HOUSING & NEIGHBOURHOODS PERFORMANCE REPORT Quarter 3 2018/19
- Report to: Housing & Neighbourhoods Committee 28 February 2019
- Report by: Trevor Chaplin, Housing Transformation Manager

#### SUBJECT MATTER/RECOMMENDATIONS

This report provides performance data from the Housing Department for Quarter 3 of 2018 – 19

Housing & Neighbourhoods Committee are requested to note this report

## 1. INTRODUCTION/BACKGROUND

1.1 A report on key performance indicators (KPI's) will be provided to the Housing & Neighbourhoods Committee each quarter.

## 2.0 PERFORMANCE INDICATORS

2.1 The indicators reported to committee are those where targets are set and performance can be measured against.

# 3.0 INDICATORS TO NOTE

#### 3.1 HN04: Average cost of a Void repair (Quarterly Cumulative)

The increase for this quarter is as a result of a number of issues, there have been a reduced number of voids undertaken in addition to annual leave in the voids team which has resulted in an increased average cost for December. Although costs for both October and November individually remained around the £2,800 cost, the inmonth cost for December increased impacting the year to date costs. In addition to provide a comprehensive comparison of costs all void work now incorporates all costs including asbestos management or removal as part of the void works. It is therefore difficult to compare current void costs with those for the same period in 2017/18.

HN09: Number of Disabled Facilities Grant (DFGs) Numbers of calendar days from initial request to works complete.

Performance has improved this quarter from the last quarter however it remains below target. There continues to be delays with two areas of the process:-(i) the Occupational Therapist assessment and the recommendation for works and (ii) the technical officer availability.

There continues to be a 0.4 fte vacancy for an Occupational Therapist within the team and Norfolk County Council is currently running a recruitment process. The technical officer resource is being monitored with caseloads being kept under review to determine whether the level of resource available needs to re-evaluated.
